

Results that last

Close gaps early and give every child a great start with Waterford's adaptive learning curriculum.

An independent evaluation of Waterford UPSTART shows it **significantly increased literacy skills for preschool-age children—especially among at-risk populations**. Longitudinal data shows those gains lasted beyond kindergarten with **participants still outperforming state averages on standardized tests through the fourth grade**.

UPSTART uses award-winning Waterford Early Learning software and premium parent engagement support services to deliver curriculum at home.

Close Gaps Early

Some of the greatest gains were made by at-risk students, including:

Dual-Language Learners

Low Income

Minorities

Special Education

Build Kindergarten Readiness

An independent evaluator measured the difference between the Waterford group and the control group, referred to as the effect size. Effect sizes are categorized as small (0.2), medium (0.5), and large (0.8).

.81

Waterford's effect size on total Brigance composite scores

.95

Waterford's effect size on total Bader composite scores

11 of 13

Number of Bader and Brigance subtests where UPSTART participants scored significantly higher

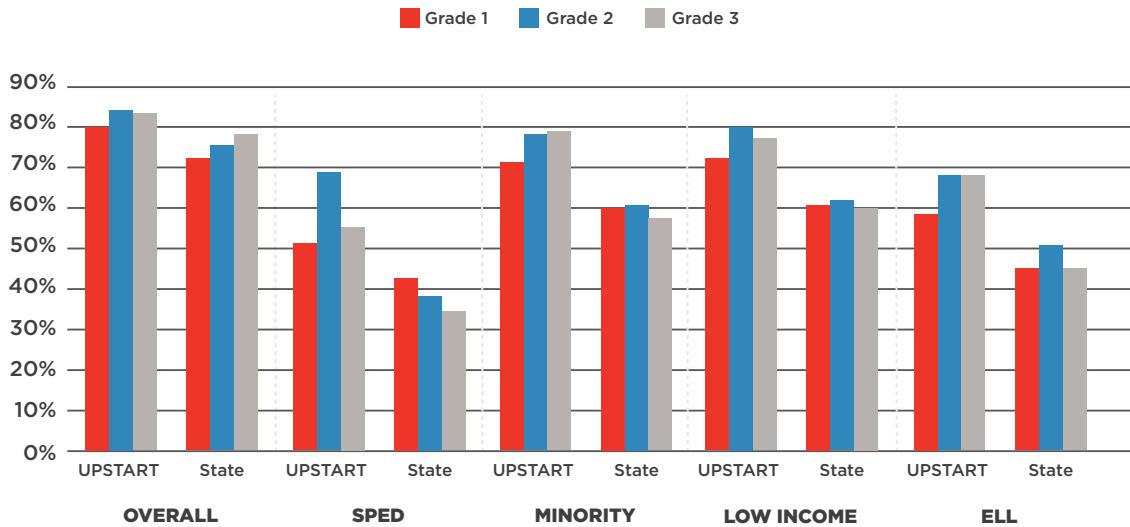

See Long-Term Results

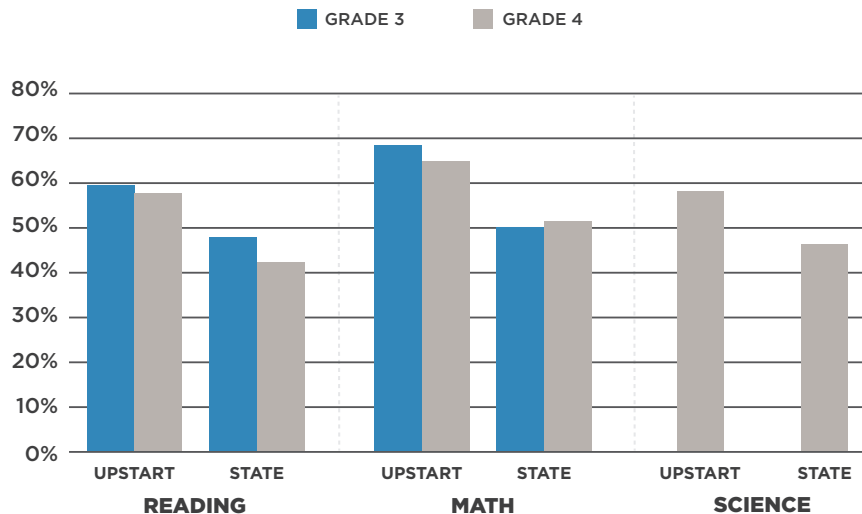

Children who used UPSTART prior to kindergarten have been outperforming state averages on standardized tests in grades first through fourth across language arts, math, and science.

“UPSTART students continually outperformed state averages in DIBELS and SAGE testing in grades first through fourth,” researchers wrote.

DIBELS

SAGE - Overall
